

Netso App Deliverables

Legal Documents

Terms of Service

Last Updated: November 20, 2025

1. Acceptance of Terms

Welcome to Netso, a mobile application for monitoring solar energy generation, consumption, and net metering savings (the "App"). By downloading or using Netso, you agree to be bound by these Terms of Service ("Terms"). If you do not agree with these Terms, you must not use the App. These Terms form a binding agreement between you and the provider of Netso ("Netso", "we", "us", or "our"). We may update these Terms from time to time by posting the updated version in the App or on our website. Your continued use of Netso after changes are posted constitutes your acceptance of the revised Terms ¹. We encourage you to review these Terms periodically for any changes.

2. User Accounts and Responsibilities

To access certain features, you may need to create an account with Netso. You agree to provide accurate, current, and complete information during registration and to keep your account credentials confidential. You are responsible for all activity that occurs under your account. **User Eligibility:** You must be at least 18 years old (or the age of legal majority in your jurisdiction) to create an account. If you are under 18, you may use the App only with involvement and consent of a parent or guardian. **User Conduct:** You agree to use Netso only for lawful purposes and in accordance with these Terms. In particular, you **agree not to:**

- Use the App in any manner that violates any applicable laws or regulations (including energy regulations or net metering rules in Bangladesh).
- Provide any information that is unlawful, fraudulent, or that you do not have the right to share.
- Attempt to gain unauthorized access to the App, other user accounts, or Netso's systems (e.g., by hacking or password mining).
- Engage in any activity that could disrupt or interfere with the performance or security of the App (such as introducing viruses or malicious code).
- Misuse the App by inputting false solar system data or tampering with energy readings to produce misleading results.

You are responsible for ensuring that your solar energy equipment (panels, inverter, meter, etc.) is functioning correctly and that any data you manually input (such as meter readings or system size) is accurate. Netso is a tool for **informational monitoring only** and does not replace official utility meters or statements. It is your responsibility to comply with any obligations you have to your electric utility or regulator (such as reporting requirements or maintenance of your net metering system). Netso does not file applications or reports on your behalf; it simply helps you track your own energy data.

3. License to Use the App

Netso grants you a personal, non-exclusive, non-transferable, revocable license to use the App for your own residential solar energy monitoring. This license is provided solely for your personal, non-commercial use in accordance with these Terms. **Intellectual Property:** All content and materials within the App, including but not limited to software, text, graphics, logos, icons, images, and all related intellectual property rights, are owned by Netso or its licensors and are protected by copyright, trademark, and other applicable laws. You agree not to copy, reproduce, distribute, modify, or create derivative works from any part of the App without our prior written consent. You may not reverse-engineer, decompile, or attempt to extract the source code of the App, except as permitted by law. All Netso names, logos, and product names are our trademarks (or our licensors' trademarks) and you must not use them without our prior written permission.

4. Privacy and Data

Your privacy is very important to us. By using the App, you consent to our collection and use of personal data as outlined in our **Privacy Policy** (see below). We adhere to applicable Bangladeshi data protection requirements and international best practices regarding user privacy ². This means we only collect personal information necessary for providing and improving the service, and we use it in line with the purposes for which you have provided consent ³. We will not use or disclose your data for purposes other than those stated, except with your consent or as required by law. If you do not agree with our data handling practices, please discontinue use of the App.

5. Third-Party Services and Links

Netso may integrate with or provide links to third-party services (for example, a link to a utility's net metering portal or external websites for weather data or industry resources). These third-party services are not under our control, and we are not responsible for the content, functionality, or practices of any third-party services or websites ⁴ ⁵. Use of any third-party service may be subject to that third party's terms and privacy policy. We do not endorse and are not liable for any third-party content, advertising, products, or other materials on or available from such external sites or resources. You acknowledge that if you access a third-party site or service from Netso, **you do so at your own risk**. We encourage you to review the terms and policies of any third-party service you access through the App.

6. Disclaimers of Warranties

Use at Your Own Risk: Netso provides the App and all information and content therein on an **"as is"** and **"as available"** basis, **without any warranties or guarantees of any kind**, either express or implied. To the fullest extent permitted by law, we disclaim all warranties of any kind, whether express, implied, or statutory, including but not limited to implied warranties of accuracy, reliability, non-infringement, merchantability, and fitness for a particular purpose. We **do not guarantee** that the App will always be available, uninterrupted, secure, or error-free ⁶. We do not guarantee that the data presented (such as solar production figures, consumption data, or net metering savings calculations) is absolutely accurate or up-to-date. While we strive for accuracy, **all information in the App is provided for general informational purposes** and should not be relied upon as the sole basis for important decisions. In particular, **Netso's savings and energy calculations are estimates**; actual results on your utility bill or metering statements may vary. Netso is **not responsible** if the App's information is not current, complete, or accurate. You agree that it is your responsibility to cross-check important data (e.g., against your utility's official records) before taking action.

Furthermore, Netso **does not warrant** that the App will meet your specific requirements or achieve any particular results. For example, we do not promise that using Netso will guarantee you any level of energy

savings or specific financial benefit. **No Professional Advice:** Any guidance or suggestions provided in the App (such as tips to improve energy efficiency) are for informational purposes and do not constitute professional engineering, financial, or legal advice. You should consult appropriate professionals for advice tailored to your situation when needed.

7. Limitation of Liability

To the maximum extent permitted by applicable law, **Netso and its parent company, officers, directors, employees, agents, partners, and affiliates will not be liable for any indirect, incidental, consequential, special, punitive, or exemplary damages** arising out of or in connection with your use of (or inability to use) the App or any information contained in it ⁷. This limitation of liability applies to **all types of claims**, whether based on warranty, contract, tort (including negligence), or any other legal theory, even if we have been advised of the possibility of such damages. Examples of damages that are excluded include (but are not limited to): loss of profits or savings, loss of data, loss of goodwill, damage to equipment, or costs of procuring substitute services ⁷. In particular, Netso shall not be liable for any loss or damage resulting from: (a) errors, mistakes, or inaccuracies of data or content on the App; (b) any unauthorized access to or use of our servers and/or any personal information stored therein; (c) any interruption or cessation of transmission to or from the App; (d) any bugs, viruses, or malicious code that may be transmitted to or through our App by any third party; or (e) any decisions made or actions taken by you in reliance on the information or metrics provided by the App (for example, financial decisions based on expected solar savings). If, notwithstanding the above, we are found liable for any claim arising out of your use of the App or these Terms, **our aggregate liability to you shall not exceed the amount (if any) you have paid us for the service in the past six (6) months** (or BDT 0 if no fees have been paid, as the App is currently provided free of charge). Certain jurisdictions do not allow the exclusion or limitation of certain warranties or liabilities; if such laws apply to you, some of the above disclaimers or limitations may not apply. In such cases, our liability will be limited to the fullest extent permitted by applicable law.

8. Indemnification

You agree to defend, indemnify, and hold harmless Netso and its affiliates, and each of their respective officers, directors, employees, and agents, from and against any and all claims, damages, obligations, losses, liabilities, costs, or debt, and expenses (including reasonable attorneys' fees) arising from: (a) your use of and access to the App, including any data or content transmitted or received by you; (b) your violation of any term of these Terms or any applicable law or regulation; (c) your violation of any rights of a third party, including any intellectual property, privacy, or other proprietary rights; or (d) any negligent or willful misconduct by you. We reserve the right, at our own expense, to assume the exclusive defense and control of any matter otherwise subject to indemnification by you (without limiting your indemnification obligations), and in such case, you agree to cooperate with our defense of such claim.

9. Suspension and Termination

We reserve the right to suspend or terminate your access to the App at any time, with or without notice, if you violate these Terms or if we determine such action is necessary to protect the security, integrity, or reputation of our services. Upon termination, your right to use the App will immediately cease, and any data you have stored in the App may no longer be accessible (though our Privacy Policy explains how we handle personal data upon account deletion). If you wish to terminate your own account, you may do so at any time by using any account deletion feature in the App or by contacting us at the support email provided below. Termination of service may result in deletion of your account and all associated data, so please back up any important information before terminating your account.

10. Governing Law and Dispute Resolution

These Terms of Service and any disputes arising out of or related to the App shall be governed by the laws of **Bangladesh**, without regard to its conflict of law principles ⁷. You agree that any legal action or proceeding arising under or relating to these Terms shall be subject to the exclusive jurisdiction of the courts of Bangladesh. If you are a resident of Bangladesh, you agree to the jurisdiction of the courts located in Bangladesh for the resolution of all disputes. If you are accessing the App from outside Bangladesh, you remain responsible for compliance with your local laws, but you explicitly agree that Bangladeshi law will govern these Terms and that you will submit to the jurisdiction of Bangladesh courts in the event of a dispute. We make no representations that the App is appropriate or available for use in other locations. Those who choose to access or use the App from other jurisdictions do so at their own initiative and risk, and are responsible for compliance with local laws.

11. Changes to the Terms

Netso may modify or update these Terms from time to time. If we make material changes, we will provide reasonable notice through the App or via other communication (e.g., posting on our website or sending an email notification). The “Last Updated” date at the top of this document indicates when the latest changes were made. Your continued use of the App after any updates to these Terms become effective will constitute your acceptance of the changes ¹. If you do not agree to the revised Terms, you must stop using the App and, if applicable, uninstall it from your device.

12. Disclaimer of Warranties (Bangladesh Specific)

We operate in Bangladesh and strive to comply with all applicable local regulations. However, Bangladesh currently does **not have a comprehensive personal data protection law** in force ⁸ (aside from provisions in the Constitution recognizing a right to privacy). Netso voluntarily adheres to high standards of data protection as outlined in our Privacy Policy. While we will follow any binding local laws (such as the Digital Security Act/Cybersecurity Act provisions regarding unlawful use of personal identification information) ⁹ ¹⁰, we provide our service with the understanding that technology and regulations evolve. We make no warranty that our App will always remain compliant with every future law in every jurisdiction, but we commit to promptly addressing compliance issues as they arise and maintaining **international best practices** for user privacy and security.

Additionally, note that under Bangladesh’s legal framework, we cannot lawfully collect or use certain sensitive personal identification information without proper authority or consent ¹¹ ¹². Netso will never ask you for sensitive personal identifiers (like National ID numbers) unless it is legally required for a specific feature and you have given consent. By using Netso, you represent that any data you provide is your own or that you have the lawful authority to provide it, and you consent to our handling of that data as described in these Terms and our Privacy Policy.

13. General Provisions

These Terms (along with the Privacy Policy and any other policies or guidelines we provide) constitute the entire agreement between you and Netso concerning the App and supersede any prior agreements or understandings regarding the same subject matter ¹³. If any provision of these Terms is found to be invalid or unenforceable by a court of competent jurisdiction, that provision will be enforced to the maximum extent permissible and the remaining provisions of these Terms will remain in full force and effect. Our failure to enforce any right or provision of these Terms shall not operate as a waiver of that right or provision ¹⁴. You may not assign or transfer these Terms (or any rights or obligations herein) without our prior written consent. We may freely assign these Terms to a third party as we deem appropriate. These

Terms do not create any agency, partnership, joint venture, or employment relationship between you and Netso.

14. Contact Information

If you have any questions, concerns, or feedback regarding these Terms of Service, you can contact us at: **support@netso.com** (customer service) or **legal@netso.com** (legal inquiries). We will do our best to respond promptly and address your concerns.

Privacy Policy

Effective Date: November 20, 2025

Your privacy is important to us. This Privacy Policy explains how **Netso** (“Netso”, “we”, “our”, or “us”) collects, uses, discloses, and safeguards your information when you use the Netso mobile application (the “App”). We are committed to protecting your personal information and being transparent about our data practices. Netso is based in Bangladesh, and we comply with Bangladeshi laws and regulations applicable to personal data, as well as international best practices for privacy and data protection ². By using the App, you agree to the collection and use of information in accordance with this Privacy Policy. If you do not agree with our practices, please do not use the App. This policy may be updated from time to time (see “**Changes to This Policy**” below).

1. Information We Collect

When you use Netso, we may collect several types of information from and about you, including:

- **Personal Information:** When you create a Netso account or use our services, we may collect personal identifiers such as your name, email address, phone number, and a password. This information is used to set up your account and authenticate you. We may also collect your address or general location if you provide it (for example, to calculate solar performance based on location or display weather data relevant to your solar installation). We do **not** collect sensitive personal identification information such as National ID numbers or financial account details, as these are not required for the App’s functionality.
- **Solar System and Energy Data:** Netso is a solar energy monitoring app, so we collect data related to your solar power system and energy usage. This may include information you provide about your solar setup (e.g. number of panels, inverter capacity, sanctioned load or connection type) and any data you input or that is collected via integrations, such as:
 - Energy generation data (how much electricity your solar panels produce over time).
 - Energy consumption data (your home’s electricity usage).
 - Net metering data, credits, and savings (amount of energy exported to the grid, credits earned, and the monetary or unit savings calculated).
 - Historical data, statistics, and trends derived from the above.This data may come from your manual inputs (for example, entering your monthly meter readings or utility bill info) or from hardware integrations if supported (such as connecting to a smart meter or inverter monitoring system). We use this information to display back to you your energy profile and savings in the App.

- **Device and Technical Information:** We collect certain information automatically about the device and app usage for the purpose of providing the service, maintaining security, and improving the user experience. This information includes:
- **Device identifiers** (e.g., your device model, operating system version, unique device ID, and hardware model).
- **Log and usage data** such as your IP address, app version, mobile network, and timestamps of interactions (e.g., when you last logged in, features you accessed).
- **Crash reports and diagnostics** in case the app encounters errors, which help us debug issues.
- **Analytics data** about how you use the App's features (e.g., which screens you visit, how frequently you use certain features). This helps us understand user engagement and improve functionality.
- **Location Information (if applicable):** The App **does not require precise GPS location** for its core functionality, unless you choose to enable a location-based feature. For example, if Netso offers an option to estimate solar production based on your city's sunlight hours or provide weather updates, we might ask for your general location or allow you to enter your city/area. Any location access would be only with your permission, and you can deny location access and still use most features of the App. Netso does not continuously track your location in the background.
- **Cookies and Similar Technologies:** While cookies are typically used on websites, our mobile App might use local storage or similar mechanisms to store settings or user preferences on your device. If in the future Netso offers a web portal or website cookies, we will update our policy accordingly. Currently, the App itself does not use cookies, but it may include third-party software development kits (SDKs) that use cookies or similar tracking technology for analytics or error tracking. Any such usage will be solely for the purposes outlined in this policy (e.g., usage analytics) and not for third-party advertising. As of now, Netso does not display third-party ads, so no advertising cookies are in use.

We only collect **personally identifiable information (PII)** when necessary to provide our services or when you voluntarily provide such information ¹⁵. You have the option to refuse to provide certain personal information, but please note that this might limit your ability to use some features of the App ¹⁶ (for instance, if you don't provide an email, you cannot create an account to save data; if you don't input any energy data, the App's monitoring features won't function).

2. How We Use Your Information

Netso uses the collected information for the following purposes, all aligned with providing you with a functional and beneficial service:

- **To Provide and Maintain the Service:** We process your login credentials to authenticate you and keep your account secure. We use your solar system and energy data to calculate and display charts, graphs, and summaries of your energy production, consumption, and net metering credits/savings. This is the core functionality of the App – giving you insight into your energy usage and savings in real time.
- **To Improve and Personalize the User Experience:** We analyze usage patterns (e.g., which features are most used) to help us improve the App's design and features. For example, if we notice many users check monthly savings, we might introduce more detailed monthly reports. Your data helps us optimize the App's performance and fix bugs (for instance, through crash reports or error logs). We may also personalize aspects of the app for you – such as showing localized content (e.g., regional solar tips or relevant news) if we know your general region.
- **To Communicate with You:** We use your contact information (like email or in-app notifications) to send you service-related communications. This includes:

- **Account and Security:** emails for account verification, password reset, login alerts, etc.
- **Important Updates:** notifying you of major changes to the App, Terms of Service, or Privacy Policy.
- **Energy Alerts and Insights:** if you opt in, we might send alerts such as “Your system hasn’t reported data in 24 hours, please check your inverter” or “Congratulations, you saved BDT 500 this month with solar!” These are meant to enhance your use of the App. You can opt in or out of such notifications in the App settings.
- **Customer Support:** if you reach out to us with an issue, we will use your information to respond and resolve your inquiries or requests.
We will **not** send you marketing emails unrelated to the App’s core purpose unless you explicitly subscribe to something (for example, a newsletter about solar energy tips). Even so, you would have the ability to opt out of such communications.
- **To Ensure Legal and Regulatory Compliance:** We may process and retain your information to comply with legal obligations. For instance, if required by Bangladesh law or a lawful request by authorities, we might need to retain certain data or report aggregate statistics. We also use data to enforce our Terms of Service (e.g., monitoring for misuse or fraud) and to ensure the security of our services and users.
- **Aggregated and Anonymized Analysis:** We may aggregate your data with others’ data in a way that no longer identifies you personally (for example, “average solar production of users in Dhaka vs. Chattogram”). Such aggregated data helps us understand trends and can be used to improve Netso or to share insights about solar usage (e.g., with researchers or in marketing materials), but **it will not identify any individual user.**

We will **not** use your personal data for any purpose that is incompatible with the purposes outlined above without obtaining your consent. We do not engage in automated decision-making or profiling that produces legal effects concerning you or similarly significant effects.

3. How We Disclose or Share Information

Netso understands the importance of keeping your personal information confidential. We do **not** sell or rent your personal information to third parties for their marketing purposes. We only share your information in the following limited situations:

- **With Service Providers:** We employ third-party companies and individuals to facilitate our App services (“Service Providers”) – for example, cloud hosting providers or analytics providers. These third parties perform services on our behalf, such as data storage (e.g., on secure servers or cloud database), application analytics (helping us understand app performance and usage), or sending out emails (if we use an email service for verification or notifications). These Service Providers have access to your personal information **only to perform these tasks on our behalf** and are obligated not to disclose or use it for any other purpose. We require that our Service Providers handle user data with strict confidentiality and adequate security measures. For instance, if we use a cloud server, it will be configured with encryption and access control; if we use analytics, any personal data will be minimized or anonymized where feasible.
- **With Your Consent or At Your Direction:** We will share your information with third parties if you explicitly ask or consent for us to do so. For example, if in the future Netso offers an integration where you can send your solar reports to an energy consultant or connect the App to a third-party home automation system, we would do so only with your knowledge and consent. You are in control of whether to use such optional features.
- **For Legal Obligations and Safety:** We may disclose your information if required to do so by law or in response to valid requests by public authorities (such as a court order, government agency, or law

enforcement request). We may also disclose information if we believe in good faith that such action is necessary to (a) comply with a legal obligation; (b) protect and defend the rights, property, or safety of Netso, our users, or others; (c) investigate or assist in preventing any violation of law or these Terms of Service; or (d) protect against legal liability. In all cases, we will only provide the minimum information necessary and will object to overbroad or unlawful requests as appropriate.

- **Business Transfers:** If Netso (or its parent company) is involved in a merger, acquisition, investment, restructuring, or asset sale, or in the unlikely event of bankruptcy, your information may be transferred to the successor or affiliated organization as part of that transaction. If that happens, we will ensure that your personal data remains subject to protections consistent with this Privacy Policy, and we will notify you (for example, via email or a prominent notice in the App) of any change in data control or practices, along with any choices you may have.
- **Aggregated or De-Identified Data:** We may share aggregated, anonymized data that cannot reasonably be used to identify you. For example, we might publish a report or share statistics with partners indicating “Total solar energy generated by Netso users in 2025” or “Average household savings per kW of solar in Bangladesh as observed on Netso.” This information will not contain any personal identifiers or individual usage traces.

Importantly, **Netso does not share your personal data publicly or with any third parties except as explained above or with your consent** ¹⁵. We do not disclose any personally identifiable information to unrelated third parties for their own use. For example, we do not give your contact info to other companies for advertising, and we do not expose your energy data to other users of the App (each user’s data is private to their account, unless you choose to share something).

If in the future we ever need to share personal data in a way not covered above, we will obtain your permission and update this Privacy Policy accordingly.

4. International Data Transfer

Netso is a Bangladesh-based service, but the infrastructure (such as servers and databases) that we use to operate the App might be located in other countries. For instance, we may use reputable cloud service providers that store data in data centers outside of Bangladesh (such as in the United States, Europe, or Asia-Pacific regions). **Bangladesh currently does not have specific legal restrictions on transferring personal data outside the country, provided the data subject’s consent is obtained** ¹⁷. **By using Netso, you consent to the transfer of your information to servers or databases located in countries outside of Bangladesh, as needed for the operation of the service.** We will take steps to ensure that your data is treated securely and in accordance with this Privacy Policy and applicable law, regardless of where it is processed. This includes implementing standard safeguards such as encryption, access controls, and contractual clauses with our service providers to ensure your data is protected.

Be aware that data protection laws in other jurisdictions may differ from those in Bangladesh. However, we will maintain **adequate protections for your data** no matter where it is stored or processed. We strive to adhere to internationally recognized privacy principles such as transparency, purpose limitation, data minimization, and security ². If you have questions about where your data is stored, you may contact us for more information.

5. Data Retention and Deletion

We **only retain your personal information for as long as necessary** to fulfill the purposes for which we collected it, including any legal, accounting, or reporting requirements ¹⁸. In practice, this means:

- As long as you maintain an account with Netso, we will keep the personal information associated with your account (such as your profile and energy data) so that we can provide the service to you.
- If you choose to delete your account or if your account remains inactive for an extended period (we may define a period, e.g., 2 years of inactivity), we will initiate the process of deleting or anonymizing your personal data. Deletion may involve removing data from our live databases, and we will also request any third-party service providers to delete data they may be storing on our behalf.
- Please note that deletion from backups may not be immediate; our backup systems might retain encrypted copies of data for a certain retention period (e.g., backups retained for 30 days) before they are overwritten. We also may retain certain information if necessary for legitimate business interests such as fraud prevention, or to comply with legal obligations. For example, if there is an unresolved issue like an open claim or dispute, we may retain relevant information until it is resolved. We may also keep aggregated or anonymized data that does not identify you, for statistical and analytical purposes.
- If you simply uninstall the App from your device without deleting your account, your account data will remain on our servers (since other users may do this and later reinstall). In such cases, we will continue to retain your information until you actively delete the account or it otherwise meets criteria for deletion as per our retention policy.
- In all cases, when we no longer have a lawful basis or need to keep your personal data, we will ensure it is either securely destroyed or anonymized so that it can no longer be associated with you.

You have the right to request deletion of your data at any time (see **“Your Rights”** below for details on how to do this). Upon such request, we will delete your personal data (or de-identify it) unless we are required to keep it for legal reasons.

6. Data Security

We are committed to protecting your data. Netso employs **commercially reasonable security measures** to safeguard the confidentiality, integrity, and availability of your personal information ¹⁸. These measures include:

- **Encryption:** Data transmitted between your device and our servers is encrypted using industry-standard encryption protocols (such as HTTPS/TLS), which protects it from eavesdropping. We also encrypt sensitive data at rest on our servers or databases whenever feasible.
- **Access Controls:** We restrict access to personal information to authorized personnel who need it to operate, develop, or improve our App. Our team members and service providers are bound by confidentiality obligations. Administrative access to systems handling personal data is limited and protected by strong authentication (e.g., multi-factor authentication).
- **Security Testing and Updates:** We regularly update our application and backend systems to address security vulnerabilities. We use up-to-date firewall and threat detection systems to guard against external attacks. We may also conduct periodic security assessments or audits (internally or with external experts) to test the strength of our safeguards.
- **Anonymization and Minimization:** Where possible, we minimize the use of personal data in our development and testing processes. For example, our analytics may focus on aggregated usage rather than individual behaviors, and we avoid storing data we don't need.

- **Backup and Recovery:** We maintain secure backup procedures to ensure data can be restored in case of accidental loss, and these backups are kept secure.

Despite our efforts, it is important to note that **no method of transmission over the Internet or method of electronic storage is 100% secure**. We cannot guarantee absolute security of your information. You should also play a role in keeping your data safe: protect your account by using a strong, unique password and keep it confidential. If you suspect any unauthorized access to your account or any security breaches, please contact us immediately. In the unlikely event of a data breach that affects your personal information, we will take steps to inform you and the relevant authorities as required by applicable law (even though Bangladesh law does not currently mandate breach notification ¹⁹, we value transparency and will notify users of serious breaches affecting them).

7. Your Rights and Choices

We believe in user rights and control over personal data. Depending on the laws that apply to you (and our own policies aligned with global best practices), you may have some or all of the following rights regarding your personal information:

- **Access and Portability:** You have the right to request a copy of the personal data we hold about you ²⁰. We can provide you with a copy of your data in a structured, commonly used electronic format. For instance, you may request an export of your solar generation and usage data that you've stored in Netso. This helps you to review it or move it to another service if you so wish (data portability).
- **Rectification:** If you believe that any personal information we have about you is incorrect or incomplete, you have the right to request us to correct it. Within the App, you may be able to update certain profile information directly (like your email or system details). For other corrections, you can contact us. We will promptly update our records and notify any third parties if necessary.
- **Deletion (Right to Erasure):** You have the right to request deletion of your personal data. As noted above, you can delete your account through the App interface (if available) or by contacting support, and we will remove your data as described in the Data Retention section. If some information must be retained (for legal or troubleshooting reasons), we will inform you and isolate that data from active use.
- **Withdrawal of Consent:** In cases where we rely on your consent to process data (for example, if you gave us consent to access your location or to send you certain notifications), you have the right to withdraw that consent at any time. You can do so by changing the settings in the App (e.g., disabling location access or turning off certain notifications) or by contacting us. Note that withdrawing consent will not affect the lawfulness of processing based on consent before its withdrawal. If you withdraw consent for something essential (like processing of energy data that the App needs to function), you may need to stop using that feature or the App.
- **Objection and Restrictions:** You have the right to object to certain processing of your data, such as processing for direct marketing or if you feel our processing is based on legitimate interest that is not justified. Currently, we do not use your data for marketing without consent, and our processing is mainly to provide the service you signed up for. If you have an objection, let us know and we will review it. You also have the right to request that we restrict processing of your data under certain circumstances, for example, while we address a claim that the data is inaccurate or being processed unlawfully.
- **Accountability and Transparency:** You have the right to ask about the **security measures** and **data protection practices** we use, which we have outlined in this policy. We aim to be transparent and will answer questions to the best of our ability. You are also entitled to know if we engage in any meaningful automated decision-making with your data (we do not at this time).

- **Complaints:** If you believe your privacy rights have been violated, you have the right to lodge a complaint. We encourage you to first reach out to us so we can address your concerns directly. If you are in Bangladesh, you can also contact the relevant authorities. (As of now, Bangladesh does not have a dedicated data protection authority; oversight might be under ministries or the Digital Security Agency. We will cooperate with any official data inquiries.)

To exercise any of these rights, please **contact us** at our support or privacy contact (provided in the Contact section below). For security, we may need to verify your identity (for example, by confirming control of your email) before fulfilling certain requests, especially for access or deletion. We will respond to your requests within a reasonable timeframe and in accordance with applicable law. In general, we will not charge a fee for reasonable requests, though excessive or unfounded repetitive requests may incur a fee as permitted by law (we will inform you beforehand in such a case).

Please note that these rights may be subject to certain exceptions or limitations. For example, if fulfilling your request could reveal personal data about another person, or if you request deletion of information that we are required by law to keep, we may not be able to fully comply. But we will always explain our reasoning to you in such cases.

8. Children's Privacy

Netso is designed for use by adults (such as homeowners or residents managing a solar system) and is **not intended for children** under the age of 13. We do not knowingly collect personal information from children under 13 years old. If you are under 13, please do not use the App or provide any personal information to us. If you are a minor above 13 (for example 14-17 years old) using the App, you should do so with the permission and under the supervision of a parent or legal guardian, who should agree to this Privacy Policy on your behalf. We encourage families to discuss their household rules regarding online information sharing.

If we learn that we have inadvertently collected personal data from a child under 13 (or the applicable minimum age in your jurisdiction) without proper consent, we will take steps to delete that information as soon as possible. If you believe that a child under 13 may have provided us personal information, please contact us immediately so that we can investigate and address the issue.

9. Compliance with Local Laws and International Standards

Although Bangladesh currently does not have a standalone comprehensive data protection law, we respect the privacy rights enshrined in the Constitution of Bangladesh and other relevant statutes ⁸. We operate in accordance with the provisions of the Digital Security Act 2018 (now largely reflected in the Cyber Security Act 2023) regarding personal data, ensuring that we only collect and use identification information with lawful authority (which, in our case, is your informed consent and the agreement embodied in our Terms of Service) ²¹ ¹⁷. Netso is committed to the principles of **legality, necessity, and transparency** in handling personal data ²² ²³. We also look to internationally recognized frameworks like the EU's GDPR as benchmarks for best practices. For example, even though GDPR doesn't directly apply to most of our users, we have incorporated core principles such as data minimization, purpose limitation, security, and respect for user rights into our Privacy Policy and practices ². We want you to have control and confidence when using Netso.

If the laws in Bangladesh change (such as the coming into force of a Data Protection Act or Ordinance), we will adapt our policy and practices to ensure compliance. We already uphold many of the expected rights

(like access and deletion) and safeguards (like obtaining consent for specific uses) that are considered good practice globally and in drafts of Bangladesh's data protection regulations. Netso's approach is to **exceed the minimum legal requirements** whenever possible to protect your privacy.

10. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in our practices, technologies, legal requirements, and other factors. When we update the policy, we will revise the "Effective Date" at the top of this page. If changes are significant, we will provide a more prominent notice (such as by posting a notice within the App or sending an email notification). We encourage you to review this Privacy Policy periodically ¹ to stay informed about how we are protecting your information.

If you continue to use Netso after any changes to this Privacy Policy become effective, it constitutes your acceptance of the updated policy. If you do not agree to the revised terms, you should stop using the App and may request us to delete your data.

11. Contact Us

If you have any questions, concerns, or comments about this Privacy Policy or our data practices, or if you wish to exercise any of your rights regarding your personal data, please contact us:

- **Email:** privacy@netso.com
- **Address:** Netso Privacy Office, [123 Solar Street, Dhaka, Bangladesh] *(Note: This is a fictional address for illustration purposes.)*
- **Phone:** +880-XXX-XXXX (if we provide a customer support line; otherwise email is preferred for privacy queries)

We will do our best to address your inquiry promptly and thoroughly. Your trust is important to us, and we welcome feedback on how we can improve our privacy practices.

Thank you for using Netso and for taking the time to read our Privacy Policy. We hope our App helps you on your journey to clean and efficient energy use. ☀

App Store Listing Copy

Below is the proposed copy for Netso's presence on the Apple App Store and Google Play Store. The tone is **sleek, trustworthy, and clean**, matching Netso's premium, Apple-like design ethos. The copy highlights Netso's key features and benefits for residential solar users in Bangladesh, including real-time monitoring, net metering savings, and ease of use.

App Title: Netso – Solar Energy Monitor & Savings Tracker

Subtitle (Apple App Store): Track Solar Power, Usage & Net Metering Savings

Short Description (Google Play):

Monitor your solar energy production and home consumption in real-time. Track net metering credits, savings, and optimize your energy usage with a sleek, easy-to-use app.

Full Description (App Store/Google Play):

Empower your solar lifestyle with Netso – Bangladesh's premier solar energy monitoring app. Netso helps you track how much energy your solar panels generate, how much electricity you use, and how it all translates into **net metering savings** on your bill. Designed with a clean, intuitive interface, Netso puts real-time energy insights at your fingertips so you can get the most out of your solar investment.

Key Features:

- **Real-Time Monitoring:** See your solar panel **power generation** and household **energy consumption** in real time. Netso updates dynamically, giving you up-to-the-minute data on how much energy your panels are producing and how much your home is using.
- **Net Metering Savings:** Instantly view your **net metering credits and savings**. Netso calculates the energy you export to the grid and what that means in taka saved. Watch your meter run backwards and know exactly how much credit you've earned from your utility – a feature tailored for Bangladesh's net metering program.
- **Interactive Charts & Insights:** Enjoy beautiful, easy-to-read graphs of your daily, weekly, and monthly performance. Track trends in solar production vs. consumption. Identify patterns to **optimize your energy usage**, reduce waste, and maximize savings. Netso's insightful analytics turn complex data into actionable energy tips.
- **Notifications & Alerts:** Stay informed with smart notifications. Get an alert if your system ever goes offline or isn't performing as expected, so you can address issues quickly. Receive helpful nudges like "Peak sun hour just ended – your panels produced 5 kWh so far today!" or "You're close to reaching a new monthly savings record." (*No more wondering – Netso keeps you in the loop.*)
- **Clean, Modern Design:** Experience a sleek design inspired by the simplicity of premium apps. Netso's interface is clutter-free and **easy to navigate**, making advanced energy data understandable at a glance. Dark mode and light mode are both supported for optimal viewing in any condition.
- **Easy Setup:** Getting started is simple. Enter basic details of your solar setup (or connect a compatible meter/inverter) and start monitoring immediately. Netso is compatible with common residential solar systems in Bangladesh. Whether you're a new solar user or a seasoned energy enthusiast, setup is a breeze.
- **Secure Cloud Sync:** Your data is securely backed up and synced across devices. Check your solar stats from your phone or tablet anytime, anywhere – whether you're at home, at work, or on the go. Netso uses encryption and follows best practices to keep your information safe.
- **Support & Resources:** Have a question about your solar performance? Netso's in-app help center and dedicated support team are ready to assist. Plus, access helpful resources on solar energy, net metering guidelines, and tips to increase your savings. We're with you every step of the way in your clean energy journey.

Why Netso?

Netso is more than just a monitoring tool – it's your partner in renewable energy. Proudly built for the **Bangladeshi solar community**, Netso understands local needs like load-shedding patterns, seasonal variations, and the latest net metering policies ²⁴ ²⁵. The app supports both single-phase and three-phase systems, reflecting Bangladesh's expanded net metering rules ²⁶. Our mission is to make solar usage **easier, smarter, and more rewarding** ²⁷ for households across the country. With an emphasis on accuracy and security, you can trust Netso to deliver reliable data. And with our elegant design, monitoring your energy becomes a delight rather than a chore.

Join a growing community of empowered solar users. Whether you have a rooftop setup in Dhaka or a rural installation feeding the grid, Netso helps you visualize your impact. See how much **money you save** and how much **green energy** you contribute back to the grid – every day.

Download Netso today and take control of your solar experience. Shine brighter with real-time insights and maximize your solar potential with Netso, the app that brings transparency and simplicity to renewable energy management.

Netso – Power in your hands, savings in your pocket.

Promotional Text (Apple App Store):

Take charge of your solar energy! ☀️ Monitor production & usage in real-time, track net metering savings, and optimize your power consumption with Netso – the sleek solar tracker designed for Bangladesh's energy-savvy homeowners.
